RE: Subscriber Notification Report, WC Docket No. 05-196

Dear Ms. Dortch:

Rock Hill Telephone Company d/b/a Comporium Communications ("Comporium") currently provides non-nomadic, Hosted-IP services to certain business customers within its local exchange serving territory. These services are provided over T-1 or other high-capacity facilities, and 100% of customers have E911 service. All 911 calls are routed to the appropriate PSAP via the 911 tandem provider. Comporium is transmitting the ANI and Registered Location of 100% of its customers to answering points that are capable of receiving and processing this information.

In the event Comporium begins providing nomadic-like IP services, Comporium will likely pursue an access arrangement with a service provider, such as Intrado, for appropriate E911 access.

The compliance contact for Comporium's efforts regarding the *VoIP E911 Order* is,

Greg Lunsford
Manager – Regulatory Affairs
Comporium Communications
P.O. Box 470
Rock Hill, SC 29731-6470
